Dear Jack,

My thanks for your kind note of May 19, as well as the invitation which brought me to the CIA on May 18, for a most stimulating morning.

And my thanks as well for the excellent work which your group continues to provide for our PRM-8 endeavor. Without it, we would be in trouble ...

Sincerely yours,

Roger D. Hansen

X1 Chief
International Issues Division
Office of Regional & Political Analysis

NOTE FOR: DDCI

Hank -

I take some pride in getting an analytic unit off the ground to deal with non-geographical issues like North-South relations, food, population, political aspects of nuclear proliferation, terrorism, etc. The unit was kept together and strengthened when ORPA was set-up and now handles human rights as well. The Chief, [] will receive a Certificate of Distinction next week. A glance at these recent letters shows it's meeting a felt need in NSC, State and DoD.
